

BUILT FOR DATA SCIENTISTS, BY DATA SCIENTISTS

Civis Platform is cloud-based data science software for disciplined data science teams that need to integrate data science into decision-making every day, at growing scale.

BRINGING DATA TO THE TABLE

Leverage our curated database of 220+ million Americans.

A FLEXIBLE WORKBENCH FOR SCIENCE

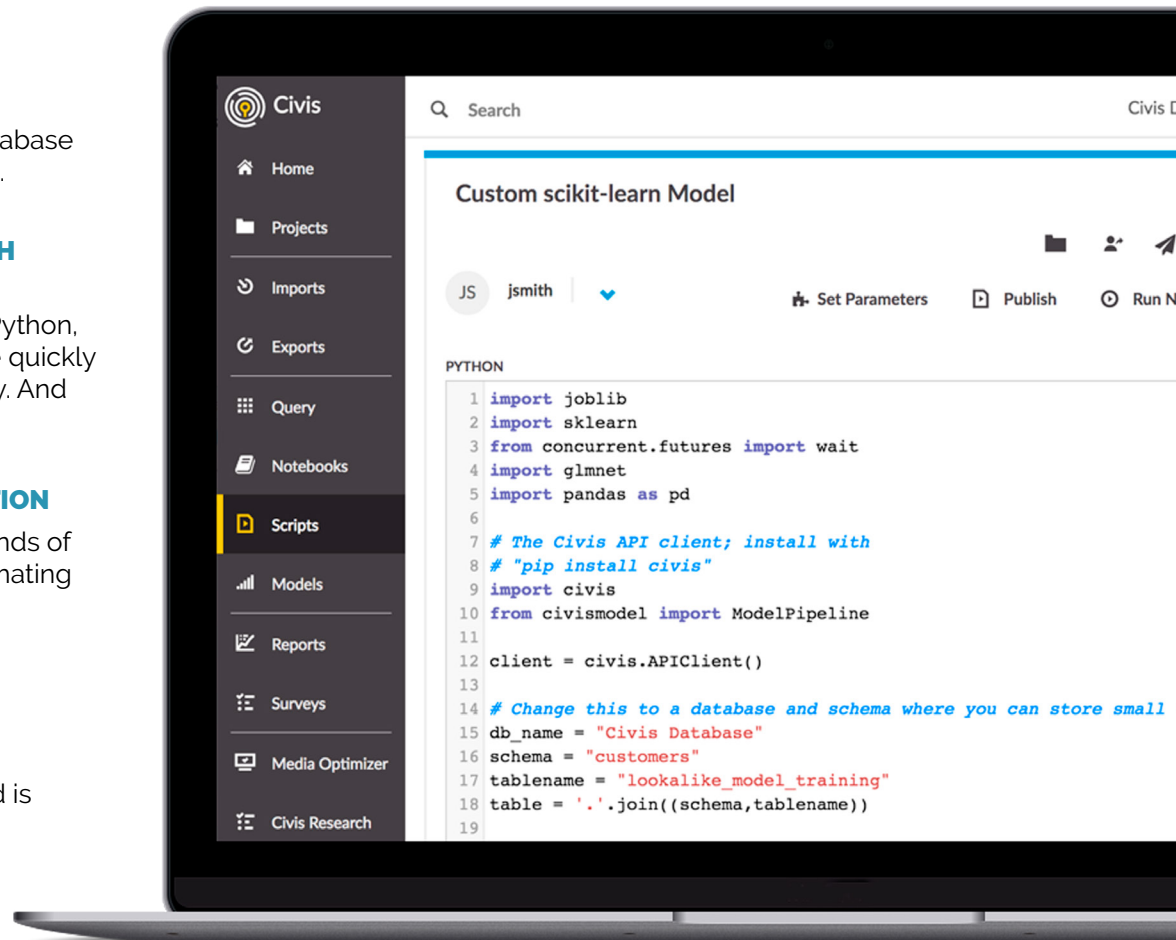

Use the tools you love—Python, R, Notebooks—to explore quickly and iterate collaboratively. And do it all at scale.

MOVE IT INTO PRODUCTION

Get your work into the hands of decision makers by automating workflows and building interactive applications.

SECURE AND SCALABLE

Civis Platform runs on AWS cloud resources and is SOC 2 Type II compliant.

“Airbnb is a growing community, and Civis’ cloud-based platform helps us understand our data and improve engagement through the power of easy-to-use data science tools.”

JOHN BALDO Director of Community Mobilization, Airbnb
