

Gates COVID-19 Tracker, Week 1 - Florida

This document includes toplines for 753 responses to the Gates COVID-19 Tracker fielded April 2-4, 2020 in the state of Florida. The toplines report on the percentage of survey-takers who selected each response, weighted to Florida's general population (adults aged 18+) in Civis' consumer file.

Each question is labeled by its question tag (which was included in the Questionnaire document in brackets) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N =" in the label. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed if:" or "Shown to."
