

Gates COVID-19 Tracker, Wave 9 - National

This document includes toplines for 7800 responses to the Gates COVID-19 Tracker fielded July 17-20, 2020. This includes 4065 responses collected across the U.S., with oversamples in the states of Florida, New York, Ohio, Texas, and Washington (730, 754, 753, 753, and 745 responses, respectively). The toplines report on the percentage of survey-takers who selected each response, weighted to the U.S. general population (adults aged 18+) in Civis' consumer file.

Each question is labeled by its question tag (which was included in the Questionnaire document in brackets) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N =" in the label. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed if:" or "Shown to."

For some questions in the disease tracking section, we've provided two versions of the percentage of survey-takers for questions with display logic where it would be most helpful. On the left, "Percent of asked" represent the percentage of respondents who were asked the question; on the right, "Percent of all resp" represent the percentage of all respondents, with an additional entry for "(Not asked)."

National Toplines

Health Status: N = 7800

How would you describe your current health status?

Margin of error = 1.4%

Health Status	Percent
Excellent	21.5%
Very Good	31.5%
Good	30.2%
Fair	13.3%
Poor	3.5%

Has Insurance: N = 7800

Do you currently have health insurance?

Margin of error = 1.4%

Has Insurance	Percent
Yes	81.4%
No	14.2%

Covid Employment Followup: N = 7800

Have you recently become unemployed or furloughed as a result of the COVID-19 pandemic?

Margin of error = 1.4%

Covid Employment Followup	Percent
Yes	26.1%
No	73.9%

Covid Essential Worker: N = 4826

How many days have you worked alongside others outside the home in the last two weeks?

Margin of error = 1.7%

Displayed if: [Employment] == Full-time or Part-time

Covid Essential Worker	Percent
0 days	30.8%
1-2 days	14.6%
3-5 days	20.4%
6-10 days	16.7%
11-14 days	17.5%

Covid Public Facing Worker: N = 3315

How many people does your job put you in face-to-face contact with on a normal day?

Margin of error = 2.1%

Displayed if: [Covid Essential Worker] > 0 days

Covid Public Facing Worker	Percent
0 people	5.5%
1 person	11.0%
2-5 people	32.8%
6-10 people	17.1%
More than 10 people	33.7%

Coronavirus Risk Symptoms2 Month2: N = 7800

In the last month (30 days), have you experienced any of the following symptoms? Please select all that apply.

Margin of error = 1.4%

Description	Selected
Cough	10.4%
Shortness of breath or difficulty breathing	6.6%
Fever	4.7%
Chills	4.4%
Muscle pain	13.5%
Headache	21.3%
Sore throat	7.0%
New loss of taste or smell	2.7%
Congestion or runny nose	10.4%
Nausea or vomiting	5.3%
Diarrhea	8.6%
Fatigue	13.0%
None of the above	54.5%

Coronavirus Risk Symptoms2 Week2: N = 3595

In the last week (7 days), have you experienced any of the following symptoms? Please select all that apply.

Margin of error = 2%

Displayed if: [Coronavirus Risk Symptoms2 Month2] == Yes

Description	Selected
Cough	17.9%
Shortness of breath or difficulty breathing	11.2%
Fever	7.4%
Chills	7.0%
Muscle pain	22.3%
Headache	34.6%
Sore throat	10.3%
New loss of taste or smell	4.0%
Congestion or runny nose	10.4%
Nausea or vomiting	5.3%
Diarrhea	8.6%
Fatigue	13.0%
None of the above	18.4%

Coronavirus Risk Think Infected: N = 7800

Do you think you've been infected with the Coronavirus (COVID-19)?

Margin of error = 1.4%

Coronavirus Risk Think Infected	Percent
Yes	8.4%
No	81.7%
Unsure	9.9%

Coronavirus Risk Hospitalization Suspected: N = 7800

In the last month (30 days), have you seen a healthcare provider or have you gone to a hospital because you suspected you had Coronavirus (COVID-19)?

Margin of error = 1.4%

Coronavirus Risk Hospitalization Suspected	Percent
Yes	12.8%
No	84.9%
I don't know	2.2%

Coronavirus Risk Where Medical: N = 958

Where did you first seek medical care for Coronavirus (COVID-19)?

Margin of error = 3.9%

Displayed if: [Coronavirus Risk Hospitalization Suspected] == Yes

Coronavirus Risk Where Medical	Percent (Asked)	Percent (All Resp)
Hospital or emergency room	22.5%	2.9%
Urgent care	18.6%	2.4%
My primary care doctor or another doctor	35.6%	4.6%
A local health department	19.9%	2.6%
Other:	3.3%	0.4%
Not answered		87.2%

Coronavirus Risk Tested: N = 7800

In the last month (30 days) have you been tested for Coronavirus (COVID-19)?

Margin of error = 1.4%

Coronavirus Risk Tested	Percent
Yes	19.2%
No	78.4%
I don't know	2.3%

Coronavirus Risk Tested When: N = 1504

For how long did you have symptoms before you were tested for Coronavirus (COVID-19)?

Margin of error = 3.1%

Displayed if: [Coronavirus Risk Tested] == Yes

Coronavirus Risk Tested When	Percent
I was tested the same day I started experiencing symptoms	9.8%
2-3 days	18.0%
4-7 days	16.8%
8-14 days	7.5%
14+ days	5.6%
I had not experienced any symptoms before being tested	39.4%
I don't know	3.0%

Coronavirus Risk Denied: N = 6155

Have you been denied a test for Coronavirus (COVID-19)?

Margin of error = 1.5%

Displayed if: [Coronavirus Risk Tested] == No

Coronavirus Risk Denied	Percent
Yes	2.9%
No	95.6%
I don't know	1.4%

Coronavirus Risk Positive: N = 1504

Have you tested positive for Coronavirus (COVID-19)?

Margin of error = 3.1%

Displayed if: [Coronavirus Risk Tested] == Yes

Coronavirus Risk Positive	Percent (Asked)	Percent (All Resp)
Yes	26.9%	5.2%
No	70.2%	13.5%
I don't know	2.9%	0.6%
Not answered		80.8%

Coronavirus Attitudes Concern Level: N = 7800

How concerned are you about Coronavirus (COVID-19)?

Margin of error = 1.4%

Coronavirus Attitudes Concern Level	Percent
Very concerned	46.6%
Somewhat concerned	30.3%
Slightly concerned	13.4%
Not at all concerned	9.7%

Coronavirus Attitudes State Order Reaction: N = 7800

Which statement best reflects your feelings about closures, restrictions, and other steps that the state of <State Name> has taken to slow the spread of the virus?

Margin of error = 1.4%

Coronavirus Attitudes State Order Reaction	Percent
I wish they would do even more	37.2%
I think the steps are appropriate given the serious nature of the crisis	37.8%
I think some of the steps are important, but overall they go too far	13.5%
I think everyone is overreacting	6.7%

Covid Protective Measures Freq: N = 7800

How often do you do each of the following?

Margin of error = 1.4%

Action	Always	Sometimes	Rarely	Never
Wear a cloth face covering or face mask while in public	72.2%	17.7%	6.2%	3.9%
Stay home and limiting trips to only essentials	58.1%	30.0%	8.0%	3.9%
Stay 6 feet apart from others	64.6%	27.4%	5.3%	2.6%
Wash hands frequently for at least 20 seconds	67.9%	24.4%	5.3%	2.4%

Covid Protective Measures Rarely Never Facemask: N = 706

You indicated that you rarely or never wear a cloth face covering or mask while in public. What best describes why you don't? Select all that apply.

Margin of error = 4.6%

Displayed if: [Covid Protective Measures Freq Face Mask] == Rarely or Never

Reason	Selected
Don't have one	14.6%
Don't think I was required to	13.2%
Unable to wear one because of a health issue or disability	17.7%
My workplace does not want me to	7.9%
It's uncomfortable	35.5%
Worried about racial bias	9.1%
Fear of retaliation or violence	8.2%
Worried that people will think I'm sick	7.8%
Other	19.3%

Coronavirus Agree: N-size between 3826 and 3974

Do you agree or disagree with the following statement?

Margin of error = 2%

Each of these options shown to a roughly 50% random subset of respondents

Statements	Strongly Agree	Somewhat Agree	Somewhat Disagree	Strongly Disagree	I Don't Know
If we don't continue practicing social/physical distancing for the long term, the COVID-19 outbreak will get worse and come back.	60.3%	23.0%	7.6%	4.4%	4.7%
I can lower my risk of catching COVID-19 through the way I act.	58.4%	27.3%	5.8%	3.8%	4.6%
Social/physical distancing and shelter-in-place orders have been successful in slowing the spread of COVID-19.	44.6%	34.5%	9.8%	5.7%	5.4%
I want to get back to normal, even if it means risking another outbreak.	17.1%	17.5%	20.5%	39.8%	5.1%
Social/physical distancing is difficult, but it's worth it.	58.8%	24.5%	8.5%	4.6%	3.6%
I'm worried that I might spread COVID-19 to others, even if I don't have symptoms myself.	34.5%	29.3%	14.3%	15.3%	6.6%
I think I can make a meaningful difference by donating money or volunteering my time right now.	21.6%	30.2%	16.9%	14.2%	17.1%
I feel confident that when I donate money now, it is being put to good use.	18.6%	32.1%	16.7%	13.4%	19.2%

Coronavirus Concern Specific: N = 7800

How concerned are you about each of the following in relation to COVID-19 (Coronavirus)?

Margin of error = 1.4%

Concern	Very Concerned	Somewhat Concerned	Slightly Concerned	Not At All Concerned
Immediate illness and symptoms of COVID-19	32.4%	25.2%	25.6%	16.8%
Transmitting COVID-19 to my household or other individuals	38.3%	22.6%	21.5%	17.6%
Losing work or income while sick	27.5%	20.1%	20.9%	31.5%
Long-term health impacts from having COVID-19	36.8%	25.2%	22.4%	15.6%

Covid Contact Tracing Heard Of: N = 7800

Have you heard about contact tracing as a way to help slow the spread of COVID-19?

Margin of error = 1.4%

Covid Contact Tracing Heard Of	Percent
Yes	63.7%
No	27.9%
I don't know	8.4%

Covid Contact Tracing Compelling Reasons: N = 7800

Contact tracing is an essential tool used by public health professionals. Trained interviewers contact people with COVID-19 to help them remember who they had close contact with. The interviewers then call those close contacts to notify them of possible exposure. The identity of the person with COVID-19 is kept confidential and never revealed to their contacts. Every person called or interviewed receives information about how to keep themselves and others safe and healthy, and about support resources that are available. Which of the following are the most compelling reasons to cooperate with contact tracers? Select all that apply.

Margin of error = 1.4%

Reason	Selected
Contact tracing helps slow the spread of COVID-19	45.6%
Contact tracing helps the economy stay open	22.5%
Contact tracing helps prevent another stay-at-home order	27.3%
Contact tracing finds and isolates new infections before they spread	39.3%
Public health employees regularly use contact tracing to slow the spread of different infectious diseases	29.6%
Contact tracing has been used for decades to combat diseases like tuberculosis, HIV/AIDS, polio and measles	23.1%
Contact tracing is free and provided by health department employees and partners	26.4%
Participation in contact tracing is voluntary	21.5%
The information from contact tracing is strictly confidential and used only to help slow the spread of disease	35.1%
None of the above	13.2%

Covid Contact Tracing Provide Info Reasons: N = 7800

Which of the following would make you more likely to provide information about your close contacts? Select all that apply.

Margin of error = 1.4%

Reason	Selected
Knowing that the interviewer will never disclose my identity to my close contacts	32.1%
Knowing that public health interviewers do not collect sensitive information, like social security number or immigration status	34.0%
Being contacted by a person or organization that's connected to my community	19.2%
Understanding how the information will be used	38.0%
Understanding why contact tracing is important	35.4%
Knowing that the information is confidential and will not be shared	40.5%
Assurances that it's really the health department and not a scam or a private corporation	35.5%
Knowing my contacts can be tested for free	36.1%
Knowing my contacts can get support services, like grocery delivery, to help them stay at home	30.0%
None of the above	13.9%

Coronavirus State Surges: N = 7800

As you may have seen in the news, cases of coronavirus (COVID-19) have been increasing in recent weeks in some states, including Arizona, Florida, Texas, and California. Has this news made you more or less concerned about the Coronavirus pandemic?

Margin of error = 1.4%

Coronavirus State Surges	Percent
More concerned than before	61.7%
Neither more nor less concerned	32.9%
Less concerned than before	5.4%

Coronavirus State Surges Reason: N = 7800

In your opinion, which of the following are the most important factors contributing toward some states experiencing an increase in COVID-19 cases, while others have seen a decrease? Select up to 3.

Margin of error = 1.4%

Factors	Selected
The federal government has not set appropriate guidelines for all states to follow.	38.3%
State governments chose to reopen too quickly.	50.7%
People living in those states have not been following guidelines for social distancing and wearing masks in public.	54.8%
More people living in those states can't afford to isolate away from their jobs and families or afford medical care.	17.1%
The spread of COVID-19 has been unpredictable, and we don't know why some states have been affected more than others.	19.6%
There are not more cases of COVID-19 in those states. The increased numbers are only because of more testing.	14.6%
The news about the Coronavirus pandemic is not true or greatly exaggerated.	8.6%
Other:	2.7%
None of the above	6.3%

Coronavirus Recent News: N = 7800

How much have you seen, read, or heard over the past week about the following issues?

Margin of error = 1.4%

Issue	A Lot - I Can Describe It In Great Detail	Some - I Can Describe It, But Am Not Familiar With The Specifics	A Little - I Have Heard About It, But Can't Say Much About It	Not At All - I Have Not Heard About This
Coronavirus (COVID-19)	53.7%	30.8%	11.3%	4.3%
Climate change	20.2%	30.3%	28.4%	21.1%
Diplomatic tension between US and China	18.6%	33.8%	31.0%	16.6%
Extreme poverty in poor countries	16.9%	28.6%	28.8%	25.7%
State of the US economy	28.0%	40.1%	23.6%	8.4%
Racial justice demonstrations and protests	42.4%	35.7%	16.0%	6.0%

Coronavirus Information Trust: N = 3949

How much do you trust the following sources of information about the Coronavirus (COVID-19)?

Margin of error = 1.9%

Shown to random 50% subset of respondents

Source	Strongly Trust	Slightly Trust	Slightly Distrust	Strongly Distrust	Have No Opinion
Local public health officials	30.7%	38.6%	14.5%	8.2%	7.9%

President Trump and Vice President Pence	19.7%
Radio broadcasts	15.7%
Church communications	5.5%
Local newspapers	22.8%

Coronavirus Behaviors Addition: N = 7800

Which of the following have you done in the last 7 days to keep yourself safe from Coronavirus (COVID-19) in addition to what you normally do?

Margin of error = 1.4%

Behavior	Selected
Washed your hands with soap or used hand sanitizer several times per day	66.4%
Canceled or postponed travel	26.4%
Canceled or postponed activities with other people	30.7%
Worked or studied at home	25.3%
Visited a doctor	12.0%
Cancel or postponed a doctor's appointment	13.6%
Stockpiled food or water	18.9%
Avoided public spaces, gatherings, or crowds	60.0%
Increased how often I clean or disinfect things I might touch, such as door knobs or hard surfaces	41.3%

Coronavirus Days Out Grocery: N = 7800

Thinking about the last two weeks, how frequently have you left the house to shop for groceries?

Margin of error = 1.4%

Coronavirus Days Out Grocery	Percent
Multiple times a day	7.4%
Once a day	7.9%
A few times a week	28.6%
Once a week	33.0%
Once in the last two weeks	14.9%
I have not left my home in at least two weeks	8.3%

Coronavirus Days Out Takeout: N = 7800

Thinking about the last two weeks, how frequently have you gone to a restaurant or cafe to pick up a take-out order?

Margin of error = 1.4%

Coronavirus Days Out Takeout	Percent
Multiple times a day	5.5%
Once a day	6.5%
A few times a week	20.8%
Once a week	19.8%
Once in the last two weeks	22.6%
I have not left my home in at least two weeks	24.7%

Coronavirus HH Division: N = 3767 total, 1694 parents

Thinking about your own life, specifically the ways in which you and your spouse or partner divide up roles at home. Since the start of the Coronavirus (COVID-19) pandemic, who does more of each of the following?

Full margin of error: 2% , Parent margin of error: 2.9%

Shown to random 50% of respondents where [Marriage Status] == 'Married', also [Children 18 or less] == Yes for options with children

Task	I Do More Of This		We Share This Equally		My Spouse/Partner Does More Of This	
	Before Covid	Since Covid	Before Covid	Since Covid	Before Covid	Since Covid
Educating children at home (parents only)	14.1%	15.1%	14.5%	13.3%	4.5%	4.6%

Coronavirus Informal Generosity: N = 7800

Have you done any of the following since the start of the Coronavirus pandemic? Select all that apply.

Margin of error = 1.4%

Actions	Selected
Delivered medication, food and/or groceries to a vulnerable friend, neighbor, or family member	18.6%
Called or Facetimed more often with a vulnerable friend, neighbor, or family member who is self-isolating	29.7%
Self-isolated and took extra precautions for myself as a caregiver to an elderly or vulnerable person	27.3%
Assisted a healthcare worker or other essential worker with childcare or other household tasks	9.2%
Sent flowers, a card, or a gift to a vulnerable friend, neighbor or family member	14.4%
Called my family or friends more often than I did before	46.2%
Engaged more on social media than I did before	36.0%
None of the above	19.7%

Coronavirus Likelihood Jobloss: N = 4826

The Coronavirus (COVID-19) may cause economic challenges for some people regardless of whether they are actually infected. How likely do you think it is that you will lose your job because of the Coronavirus within the next three months?

Margin of error = 1.7%

Displayed if: [Employment] == 'Full time' OR 'Part time'

Coronavirus Likelihood Jobloss	Percent
Very likely	19.7%
Somewhat likely	17.7%
Somewhat unlikely	16.1%
Very unlikely	24.0%
Not sure	22.4%

Coronavirus Children Impact Parent Concern: N = 2789

As a parent, are you more or less concerned about your child(ren)'s development in the following areas as a result of Coronavirus (COVID-19) than you were before?

Margin of error = 2.3%

Area	Much More Concerned	A Little More Concerned	Neither More Nor Less Concerned Than Before	A Little Less Concerned	Much Less Concerned
Social	27.7%	22.1%	25.5%	12.8%	11.9%
Academic	29.8%	21.9%	24.3%	12.3%	11.7%

Coronavirus Children K12 Summer: N = 2789

Do you have any children at home who were enrolled in primary or secondary school (K-12) during this past school year?

Margin of error = 2.3%

Displayed if: [Children 18 or less] == Yes

Coronavirus Children K12 Summer	Percent
Yes	75.7%
No	24.3%

Coronavirus Children K12 Homework Summer: N = 2100

Were your children affected by school closures this past school year and doing educational activities at home?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Homework Summer	Percent
Yes	91.9%
No	8.1%

Coronavirus Children K12 Data: N = 2100

What kind of data did your children’s school or teachers provide you on your child’s progress and performance during this past school year? Please select all that apply.

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Data Source	Selected
Grades on report cards	51.7%
Scores on standardized tests	30.1%
Attendance and/or class participation	39.7%
Qualitative student profile of strengths and skills	31.5%
Sample work	30.8%
Data over time	25.8%
Other	2.1%
None of the above	6.3%

Coronavirus Children K12 Data Understand Use: N = 2100

Do you know how your children's school or teachers were using the data they collected about your children over this past school year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Understand Use	Percent
Yes	53.9%
No	39.1%
My children's school or teachers do not collect student data	7.0%

Coronavirus Children K12 Data Understand More: N = 2100

Do you know or understand more about the data collected about your student(s) since school closures and starting educational activities at home?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Understand More	Percent
Yes	53.8%
No	34.9%
I don't know	11.3%

Coronavirus Children K12 Data Comfort After: N = 2100

Do you feel more or less comfortable with the data collected about your student(s) since school closures and starting educational activities at home?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Comfort After	Percent
More comfortable than before	36.5%
Neither more nor less comfortable than before	52.8%
Less comfortable than before	10.7%

Coronavirus Children K12 Data Useful Teacher Before: N = 2100

Do you think your children's school or teachers used the data collected to help your students' academic progress prior to school closures this year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Useful Teacher Before	Percent
Yes	53.0%
No	14.5%
I don't know	27.8%
My children's school or teachers do not collect student data	4.7%

Coronavirus Children K12 Data Useful Teacher After: N = 2100

Do you think your children's school or teachers used the data collected to help your students' academic progress after school closures this year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Useful Teacher After	Percent
Yes	52.5%
No	14.6%
I don't know	28.7%
My children's school or teachers do not collect student data	4.2%

Coronavirus Children K12 Data Useful Parent Before: N = 2100

Were you able to use the data collected to help your students' academic progress prior to school closures this year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Useful Parent Before	Percent
Yes	46.3%
No	21.0%
I don't know	23.0%
I did not receive any data prior to school closures this year	9.7%

Coronavirus Children K12 Data Useful Parent After: N = 2100

Were you able to use the data collected to help your students' academic progress after school closures this year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Useful Parent After	Percent
Yes	47.5%
No	20.7%
I don't know	21.5%
I did not receive any data after school closures this year	10.4%

Coronavirus Children K12 Data Collection: N = 2100

Do you think your children's school and teachers should collect more or less data about your children's progress and performance in the next school year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Collection	Percent
More data than in the past school year	44.6%
The same amount of data as in the past school year	47.9%
Less data than in the past school year	7.5%

Coronavirus Children K12 Data Collection Share: N = 2100

Do you think your children's school and teachers should share more or less data about your children's progress and performance with you in the next school year?

Margin of error = 2.6%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Coronavirus Children K12 Data Collection Share	Percent
More data than in the past school year	46.4%
The same amount of data as in the past school year	47.5%
Less data than in the past school year	6.1%

Coronavirus Children K12 Data Agree: N = 1039

Do you agree or disagree with the following statement?

Margin of error = 3.8%

Displayed if: [Coronavirus Children K12 Summer] == Yes

Statements	Strongly Agree	Somewhat Agree	Somewhat Disagree	Strongly Disagree	I Don't Know
I would use data about the performance of the school, such as test scores and graduation rates, to make decisions related to my children's education.	45.9%	37.9%	5.6%	2.1%	8.5%
A school's overall performance rating, like an A-F letter grade, helps me make decisions related to my children's education.	48.8%	34.4%	8.5%	2.7%	5.5%
I know what information my children's school collects about my children.	30.8%	34.5%	16.5%	6.9%	11.2%
I understand how my children's school is using the information it collects about my children.	32.5%	32.4%	15.1%	5.9%	14.0%
I support teachers' use of data, such as grades, attendance, and test scores, to make sure that their students are getting all the support and enrichment they need.	50.4%	34.2%	7.0%	2.4%	6.0%
I need data, like grades and test scores, to understand my children's progress so I can help them do their best.	50.2%	33.1%	7.2%	1.9%	6.6%
Schools should be able to securely share information about a child's performance in school and education needs with organizations (e.g., after-school programs, Boys and Girls Club, tutoring) outside of school.	39.2%	30.1%	12.6%	8.1%	10.0%

I think different public agencies (e.g., education, health, housing, child welfare) should securely share information with each other about children and their families to improve services and the allocation of resources (e.g., funding, staff).

I trust that my children’s school is keeping my children’s data private and secure.

I want my children’s teachers to use data related to my children’s progress in school, such as grades, attendance, and test scores, to help personalize his or her learning experience (i.e., set learning goals that my children, my children’s teachers, and I can track together throughout the school year).

I have easy access to all the information I need to make sure my children get a great education.

My children’s school actively communicates with me how it is using the data that it collects about my children.
