

Gates COVID-19 Tracker, Wave 11 - National

This document includes selected crosstabs for 8188 responses to the Gates COVID-19 Tracker fielded September 17-21, 2020. It includes 4397 responses collected across the U.S., with oversamples in the states of Florida, New York, Ohio, Texas, and Washington (762, 782, 750, 750, and 747 responses, respectively). The crosstabs report on the percentage of survey-takers within each response, weighted to the relevant demographic or geographic subgroup within the U.S. general population (adults 18+) in Civis' consumer file. Each question is labeled by its question tag (which was included in the Questionnaire document) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N = " in the label, and the number of responses within each subgroup is indicated in the "Total Count" column. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed to: Shown to."

Selected National Crosstabs

Crosstabs by Region

Region	State
Mountain	AZ, CO, ID, MT, NV, NM, UT, WY
East South Central	AL, KY, MS, TN
South Atlantic	DE, DC, FL, GA, MD, NC, SC, VA, WV
Pacific	AK, CA, HI, OR, WA
Mid-Atlantic	NJ, NY, PA
Texas	Texas
East North Central	IL, IN, MI, OH, WI
Not categorized	Not categorized
West South Central	AR, LA, OK
New England	CT, ME, MA, NH, RI, VT

West North Central
