

Gates COVID-19 Tracker, Wave 12 - Florida

This document includes toplines for 758 responses to the Gates COVID-19 Tracker fielded October 21-26, 2020 in the state of Florida. The toplines report on the percentage of survey-takers who selected each response, weighted to Florida's general population (adults aged 18+) in Civis' consumer file. National toplines from this week are also provided for each question response for comparison.

Each question is labeled by its question tag (which was included in the Questionnaire document in brackets) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N = " in the label. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed if:" or "Shown to."

For some questions in the disease tracking section, we've provided two versions of the percentage of survey-takers for questions with display logic. On the left, "US (asked)" or "FL (asked)" represent the percentage of respondents who were asked the question; on the right, "US (all resp)" or "FL (all resp)" represent the percentage of all respondents, with an additional entry for "(Not asked)."

Florida Toplines

Health Status: N = 758

How would you describe your current health status?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Health Status	US	FL
Excellent	21.2%	20.9%
Very Good	33.0%	31.8%
Good	30.8%	31.0%
Fair	12.3%	12.2%
Poor	2.6%	4.0%

Has Insurance: N = 758

Do you currently have health insurance?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Has Insurance	US	FL
Yes	82.2%	78.2%
No	13.9%	17.2%
Not Sure	3.9%	4.6%

Covid Employment Followup: N = 758

Have you recently become unemployed or furloughed as a result of the COVID-19 pandemic?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid Employment Followup	US	FL
Yes	24.9%	25.7%
No	75.1%	74.3%

Covid Essential Worker: N = 473

How many days have you worked alongside others outside the home in the last two weeks?

US Margin of Error = 1.7%, FL Margin of Error = 6%

Displayed if: [Employment] == Full-time or Part-time

Covid Essential Worker	US	FL
0 days	22.5%	25.3%
1-2 days	15.1%	14.4%
3-5 days	24.5%	25.4%
6-10 days	19.9%	15.4%
11-14 days	18.0%	19.5%

Covid Public Facing Worker: N = 365

How many people does your job put you in face-to-face contact with on a normal day?

US Margin of Error = 2%, FL Margin of Error = 6.8%

Displayed if: [Covid Essential Worker] > 0 days

Covid Public Facing Worker	US	FL
0 people	5.3%	4.0%
1 person	10.4%	10.8%
2-5 people	32.6%	33.6%
6-10 people	18.5%	19.1%
More than 10 people	33.3%	32.5%

Coronavirus Risk Symptoms2 Month2: N = 758

In the last month (30 days), have you experienced any of the following symptoms? Please select all that apply.

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Description	US	FL
Cough	14.8%	12.6%
Shortness of breath or difficulty breathing	7.1%	6.4%
Fever	6.7%	4.6%
Chills	6.1%	7.2%
Muscle pain	17.6%	15.2%
Headache	28.7%	25.1%
Sore throat	9.6%	7.6%
New loss of taste or smell	3.2%	3.9%
Congestion or runny nose	15.6%	15.4%
Nausea or vomiting	6.9%	7.3%
Diarrhea	11.6%	9.0%
Fatigue	16.2%	16.0%
None of the above	44.5%	48.8%

Coronavirus Risk Symptoms2 Week2: N = 410

In the last week (7 days), have you experienced any of the following symptoms? Please select all that apply.

US Margin of Error = 1.8%, FL Margin of Error = 6.4%

Displayed if: [Coronavirus Risk Symptoms2 Month2] == Yes

Coronavirus Attitudes Concern Level: N = 758

How concerned are you about Coronavirus (COVID-19)?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Coronavirus Attitudes Concern Level	US	FL
Very concerned	43.6%	47.4%
Somewhat concerned	30.7%	31.9%
Slightly concerned	14.7%	10.6%
Not at all concerned	11.0%	10.1%

Coronavirus Attitudes State Order Reaction: N = 758

Which statement best reflects your feelings about closures, restrictions, and other steps that the state of <State Name> has taken to slow the spread of the virus?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Coronavirus Attitudes State Order Reaction	US	FL
I wish they would do even more	32.2%	40.2%
I think the steps are appropriate given the serious nature of the crisis	39.6%	35.3%
I think some of the steps are important, but overall they go too far	15.2%	13.8%
I think everyone is overreacting	8.4%	5.6%

Covid Protective Measures Freq: N = 758

How often do you do each of the following?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Action	Always		Sometimes		Rarely		Never	
	US	FL	US	FL	US	FL	US	FL
Wear a cloth face covering or face mask while in public	74.3%	79.6%	17.0%	14.0%	5.6%	4.0%	3.2%	2.3%
Stay home and limiting trips to only essentials	51.6%	59.8%	32.7%	25.9%	9.6%	9.7%	6.1%	4.7%
Stay 6 feet apart from others	60.7%	68.0%	29.2%	23.4%	7.2%	6.6%	3.0%	1.9%
Gather with small groups only when socializing	38.3%	39.1%	27.6%	23.2%	19.4%	20.7%	14.7%	17.0%
When socializing, wear a mask, keep six feet apart, and gather in small groups only	61.7%	68.6%	24.2%	20.5%	8.8%	6.6%	5.4%	4.3%

Covid Protective Measures Not Always Facemask: N = 169

You indicated that you don't always wear a cloth face covering or mask while in public. What best describes why you don't? Select all that apply.

US Margin of Error = 2.8%, FL Margin of Error = 10%

Displayed if: [Covid Protective Measures Freq -- Wear a cloth face covering / face mask] == Sometimes, Rarely, or Never

Reasons	US	FL
Don't have one	6.8%	7.4%
Don't think I am required to	10.9%	10.9%
Unable to wear one because of a health issue or disability	13.0%	13.6%
My workplace does not want me to	6.9%	10.3%
It's uncomfortable	23.6%	18.0%
Worried about racial bias	8.1%	5.0%
Worried that people will think I'm sick	9.4%	9.7%
I forget to bring it with me	15.5%	15.5%
Wearing a mask isn't worth the impact on society	14.1%	13.8%
If I'm social distancing and/or outside, it's not necessary	30.1%	25.7%
When others aren't wearing one, I don't either	12.0%	9.9%

I don't really trust the people who are telling us it is necessary to wear a mask	19.6%	15.0%
I trust that the people I'm gathering with have taken the proper precautions	15.2%	12.8%
Other	6.6%	6.5%

Covid Protective Measures Not Always Distancing: N = 256

You indicated that you don't always stay 6 feet apart from others while in public. What best describes why you don't? Select all that apply.

US Margin of Error = 2.2%, FL Margin of Error = 8.1%

Displayed if: [Covid Protective Measures Freq -- Stay 6 feet apart from others] == Sometimes, Rarely, or Never

Reasons	US	FL
I get anxious and/or feel depressed when I can't be physically close to my friends	13.3%	13.8%
When I try to stay socially distanced, others don't	28.6%	25.4%
Some of the places I go don't have enough room to stay 6 feet apart	39.0%	41.4%
I don't really trust the people who are telling us it is necessary	17.4%	15.3%
If I'm outside and/or wearing a mask, it's not necessary to stay physically distanced	26.9%	25.8%
When people I know aren't staying physically distant, I don't either	18.5%	14.9%
Other	5.1%	7.0%

Covid Protective Measures Not Always Small Gatherings: N = 447

You indicated that you don't always gather with small groups only when socializing. What best describes why you don't? Select all that apply.

US Margin of Error = 1.8%, FL Margin of Error = 6.1%

Displayed if: [Covid Protective Measures Freq -- Gathers small groups only when socializing] == Sometimes, Rarely, or Never

Reasons	US	FL
I get anxious and/or feel depressed when I can't be physically close to my friends	10.7%	10.1%
I hear inconsistent information about gathering, so I'm not sure what to do	16.0%	15.6%
It's hard to exclude people from gatherings, I don't want to hurt anyone's feelings	12.0%	11.2%
It's hard to say no to some gatherings, I don't want to be disrespectful	12.4%	9.4%
Gatherings are spontaneous, so it's not easy to control the number of people	20.9%	20.3%
I trust that my friends and family have taken proper precautions	35.6%	32.9%

If we are wearing masks,
standing six feet apart
and/or are outside, it's not
necessary to gather in small
groups

Covid Vaccine Intent: N = 758

How likely are you to get vaccinated for COVID-19 when a vaccine that has been proven safe and tested to be effective becomes available?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid Vaccine Intent	US	FL
Very likely	35.1%	33.8%
Somewhat likely	24.5%	22.8%
Somewhat unlikely	11.1%	10.9%
Very unlikely	18.3%	20.0%
Not sure	11.0%	12.6%

Covid Vaccine Barriers: N = 307

You indicated that you aren't sure or are unlikely to get the coronavirus vaccine. What best describes why you are not likely to get the vaccine? Select all that apply.

US Margin of Error = 2.3%, FL Margin of Error = 7.4%

Displayed if: [Covid Vaccine Intent] == Somewhat Unlikely, Very Unlikely, or Not Sure

Barriers	US	FL
I'm worried the vaccine will have side effects	34.6%	38.1%
I'm worried the vaccine will give me COVID-19	14.6%	14.7%
I don't trust that the vaccine will really be safe	44.5%	44.4%
I don't trust that the vaccine will really be effective	30.8%	28.6%
Politicians, not scientists, are making decisions about the vaccine	25.3%	25.4%
I don't react well to vaccines in general	10.2%	7.0%
I don't have health insurance or can't afford it	6.9%	9.3%
I don't think I need it because I've already had COVID-19	4.0%	4.6%
COVID-19 is not such a big deal, so I don't think I need it	8.9%	8.8%
Other people will get it so I won't need it	3.3%	4.4%

I don't believe vaccines work	10.6%	13.1%
I'm concerned it has not been tested enough on people like me	32.2%	31.5%
Other	6.0%	4.9%

Covid Vaccine Motivators: N = 758

Which of the following would make you more likely to get the COVID-19 vaccine if it has been proven safe and tested to be effective? Select all that apply.

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Motivators	US	FL
If it was recommended by my local health department	23.7%	23.0%
If it was recommended by local government officials	14.7%	11.9%
If it has been out for a few months and seems okay	29.0%	27.9%
If it has been approved by the FDA (Food & Drug Administration)	40.8%	43.8%
If it has passed clinical trials	41.7%	42.1%
If it has passed an independent, scientific safety and efficacy review	39.1%	38.8%
If I knew it would help protect myself from getting COVID-19	38.4%	38.2%
If I knew that it was part of helping end the pandemic	28.9%	26.6%
None of the above	14.8%	15.6%

Covid Vaccine Benefits: N = 758

Which of these would be the most compelling reasons to get the COVID-19 vaccine once it has been proven safe and tested to be effective? Select all that apply.

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Benefits	US	FL
I would be more comfortable leaving my home to do everyday errands, like shopping, going to the dentist/doctor, getting regular car maintenance, and so on.	39.2%	40.7%
I would be able to resume all the activities I can't do now.	33.2%	33.3%
I would be helping to get businesses and people whose finances have been negatively impacted by the pandemic get back on their feet sooner.	34.7%	34.1%
I would be helping children and college students get back to the classroom as soon as possible.	27.5%	24.7%
None of the above	14.5%	15.1%

Covid Contact Tracing Heard Of: N = 758

Have you heard about contact tracing as a way to help slow the spread of COVID-19?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid Contact Tracing Heard Of	US	FL
Yes	65.6%	62.1%
No	26.6%	29.4%
I don't know	7.8%	8.5%

Covid Contact Tracing Compelling Reasons: N = 758

Contact tracing is an essential tool used by public health professionals. Trained interviewers contact people with COVID-19 to help them remember who they had close contact with. The interviewers then call those close contacts to notify them of possible exposure. The identity of the person with COVID-19 is kept confidential and never revealed to their contacts. Every person called or interviewed receives information about how to keep themselves and others safe and healthy, and about support resources that are available. Which of the following are the most compelling reasons to cooperate with contact tracers? Select all that apply.

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Reason	US	FL
Contact tracing helps slow the spread of COVID-19	44.5%	46.7%
Contact tracing helps the economy stay open	24.4%	25.0%
Contact tracing helps prevent another stay-at-home order	28.1%	31.4%
Contact tracing finds and isolates new infections before they spread	38.0%	40.1%
Public health employees regularly use contact tracing to slow the spread of different infectious diseases	28.9%	33.7%
Contact tracing has been used for decades to combat diseases like tuberculosis, HIV/AIDS, polio and measles	23.3%	25.6%
Contact tracing is free and provided by health department employees and partners	25.2%	27.2%
Participation in contact tracing is voluntary	18.6%	17.0%
The information from contact tracing is strictly confidential and used only to help slow the spread of disease	32.8%	36.9%
None of the above	14.2%	14.4%

Covid Contact Tracing Provide Info Reasons: N = 758

Which of the following would make you more likely to provide information about your close contacts? Select all that apply.

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Reason	US	FL
Knowing that the interviewer will never disclose my identity to my close contacts	28.5%	31.5%
Knowing that public health interviewers do not collect sensitive information, like social security number or immigration status	30.4%	30.3%
Being contacted by a person or organization that's connected to my community	15.8%	17.1%
Understanding how the information will be used	34.4%	35.9%
Understanding why contact tracing is important	32.6%	33.7%
Knowing that the information is confidential and will not be shared	39.5%	40.6%
Assurances that it's really the health department and not a scam or a private corporation	33.1%	35.6%
Knowing my contacts can be tested for free	32.6%	30.2%
Knowing my contacts can get support services, like grocery delivery, to help them stay at home	26.7%	27.4%
None of the above	14.5%	15.9%

Covid Exposure Notifications Awareness: N = 758

Have you heard about exposure notification apps or features on your phone as a way to help slow the spread of COVID-19?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid Exposure Notifications Awareness	US	FL
Yes	43.9%	38.5%
No	48.1%	54.8%
I don't know	8.0%	6.6%

Covid Exposure Notifications Intent: N = 758

Exposure Notification is something you can voluntarily download as an app or enable as a setting on your phone. Doing this allows your phone to use Bluetooth to create a log of the phones of other users you are near for more than 15 minutes. It is completely anonymous – it does not know who you are or where you go. Anyone who tests positive for COVID is contacted by a public health official. As part of this process, the person that tests positive will be asked if they have the feature enabled on their phone. If they do, they will be given a verification code that they can choose to put into the app/feature. Any phones also using the feature and which have been nearby in the past two weeks would receive a notification to alert the user they may have been exposed to COVID-19. The notification includes a link to a website with info about what to do next. How likely would you be to enable this feature or download this app?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid Exposure Notifications Intent	US	FL
Very likely	24.9%	23.3%
Somewhat likely	24.1%	25.4%
Somewhat unlikely	14.2%	13.0%
Not at all likely	23.5%	23.6%
Not sure	13.3%	14.7%

Covid Exposure Notifications Motivators: N = 758

Would you be more likely, less likely or have the same likelihood of enabling this feature if:

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Motivators	More Likely		Neither More Nor Less Likely		Less Likely	
	US	FL	US	FL	US	FL
This app provides 100% privacy, no data is shared about the individual or their location.	49.6%	51.0%	41.2%	39.1%	9.2%	9.9%
This app was created from a partnership between Apple, Google and your local health department.	35.7%	35.9%	50.9%	51.9%	13.5%	12.1%
People using the app helps decrease the number of cases in the state.	50.9%	52.7%	39.2%	37.9%	9.9%	9.4%

Covid College Surges: N = 758

As you may have seen in the news, cases of coronavirus (COVID-19) have been increasing in recent weeks in some areas, particularly around college campuses. Has this news made you more or less concerned about the Coronavirus pandemic?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Covid College Surges	US	FL
More concerned than before	51.9%	53.5%
Neither more nor less concerned	42.6%	42.4%
Less concerned than before	5.5%	4.2%

Coronavirus College Surges Reason: N = 758

In your opinion, which of the following is the most important factor contributing toward the increase in COVID-19 cases around college campuses?

US Margin of Error = 1.4%, FL Margin of Error = 4.7%

Coronavirus College Surges Reason	US	FL
The federal government has not set appropriate guidelines for all campuses to follow.	12.2%	15.7%
Colleges and universities did not put into place necessary precautions for students to return to campus.	12.2%	9.8%
Students are being irresponsible and not following guidelines set by their college or university.	38.3%	38.4%
The spread of COVID-19 has been unpredictable, and we don't know why college campuses are currently hotspots.	13.6%	13.5%
There are not more cases of COVID-19 in those areas. The increased numbers are only because of more testing.	12.9%	9.6%
Other:	1.5%	1.6%
None of the above	9.3%	11.4%

Coronavirus Government Budget Federal: N = 375
