

Gates COVID-19 Tracker, Wave 16 - National

This document includes toplines for 8611 responses to the Gates COVID-19 Tracker fielded March 11-15, 2021. This includes 4385 responses collected across the U.S., with oversamples in the states of Florida, New York, Ohio, Texas, and Washington (774, 861, 748, 770, and 1073 responses, respectively). The toplines report on the percentage of survey-takers who selected each response, weighted to the U.S. general population (adults aged 18+) in Civis' consumer file. Each question is labeled by its question tag (which was included in the Questionnaire document in brackets) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N = " in the label. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed if:" or "Shown to." For some questions in the disease tracking section, we've provided two versions of the percentage of survey-takers for questions with display logic where it would be most helpful. On the left, "Percent of asked" represent the percentage of respondents who were asked the question; on the right, "Percent of all resp" represent the percentage of all respondents, with an additional entry for "(Not asked)."

National Toplines

Health Status: N = 8611

How would you describe your current health status?

Margin of error = 1.5%

Health Status	Percent
Excellent	15.8%
Very Good	31.2%
Good	34.0%
Fair	16.4%
Poor	2.7%

Has Insurance: N = 8611

Do you currently have health insurance?

Margin of error = 1.5%

Has Insurance	Percent
Yes	82.8%
No	13.5%
Not Sure	3.7%

Covid Parents In Household: N = 3156

Who is responsible for taking care of your child(ren)? Select all that apply.

Margin of error = 2.4%

Displayed if: [Children 18 or Less] == Yes

Caretaking Duties	Selected
I am a single parent	19.0%
I share the care of my child(ren) with a partner	66.3%
I share the care of my child(ren) with an ex-partner	4.6%
I share the care of my child(ren) with a grandparent or relative	4.5%
Other	10.3%

Covid Employment Followup: N = 8611

Have you recently become unemployed or furloughed as a result of the COVID-19 pandemic?

Margin of error = 1.5%

Covid Employment Followup	Percent
Yes	18.6%
No	81.4%

Covid Essential Worker: N = 5065

How many days have you worked alongside others outside the home in the last two weeks?

Margin of error = 1.9%

Displayed if: [Employment] == Full-time or Part-time

Covid Essential Worker	Percent
0 days	24.6%
1-2 days	13.1%
3-5 days	22.1%
6-10 days	20.9%
11-14 days	19.2%

Covid Public Facing Worker: N = 3835

How many people does your job put you in face-to-face contact with on a normal day?

Margin of error = 2.2%

Displayed if: [Covid Essential Worker] > 0 days

Covid Public Facing Worker	Percent
0 people	4.7%
1 person	7.9%
2-5 people	32.3%
6-10 people	17.9%
More than 10 people	37.2%

Coronavirus Risk Symptoms 2 Month 2: N = 8611

In the last month (30 days), have you experienced any of the following symptoms? Please select all that apply.

Margin of error = 1.5%

Description	Selected
Cough	12.8%
Shortness of breath or difficulty breathing	6.7%
Fever	3.7%
Chills	5.3%
Muscle pain	18.2%
Headache	29.0%
Sore throat	7.7%
New loss of taste or smell	1.7%
Congestion or runny nose	15.8%
Nausea or vomiting	5.9%
Diarrhea	9.5%
Fatigue	14.7%
None of the above	48.5%

Coronavirus Risk Symptoms2 Week2: N = 4740

In the last week (7 days), have you experienced any of the following symptoms? Please select all that apply.

Margin of error = 2%

Displayed if: [Coronavirus Risk Symptoms2 Month2] == Yes

Description	Percent (Asked)	Percent (All Resp)
Cough	16.3%	8.4%
Shortness of breath or difficulty breathing	9.4%	4.8%
Fever	5.1%	2.6%
Chills	6.5%	3.4%
Muscle pain	25.7%	13.2%
Headache	38.7%	19.9%
Sore throat	8.7%	4.5%
New loss of taste or smell	2.2%	1.1%
Congestion or runny nose	22.3%	11.5%
Nausea or vomiting	7.0%	3.6%
Diarrhea	11.6%	6.0%
Fatigue	20.9%	10.8%
None of the above	20.4%	10.5%
Not Answered		48.5%

Coronavirus Risk Think Infected: N = 8611

Do you think you've been infected with the Coronavirus (COVID-19)?

Margin of error = 1.5%

Coronavirus Risk Think Infected	Percent
Yes	7.8%
No	84.8%
Unsure	7.4%

Coronavirus Risk Hospitalization Suspected: N = 8611

In the last month (30 days), have you seen a healthcare provider or have you gone to a hospital because you suspected you had Coronavirus (COVID-19)?

Margin of error = 1.5%

Coronavirus Risk Hospitalization Suspected	Percent
Yes	10.1%
No	88.3%
I don't know	1.5%

Coronavirus Risk Where Medical: N = 1004

Where did you first seek medical care for Coronavirus (COVID-19)?

Margin of error = 4.3%

Displayed if: [Coronavirus Risk Hospitalization Suspected] == Yes

Coronavirus Risk Where Medical	Percent (Asked)	Percent (All Resp)
Hospital or emergency room	21.6%	2.2%
Urgent care	17.8%	1.8%
My primary care doctor or another doctor	39.2%	4.0%
A local health department	16.8%	1.7%
Other:	4.7%	0.5%
Not answered		89.9%

Coronavirus Risk Tested: N = 8611

In the last month (30 days) have you been tested for Coronavirus (COVID-19)?

Margin of error = 1.5%

Coronavirus Risk Tested	Percent
Yes	21.1%
No	77.0%
I don't know	1.8%

Coronavirus Risk Tested When: N = 1940

For how long did you have symptoms before you were tested for Coronavirus (COVID-19)?

Margin of error = 3.1%

Displayed if: [Coronavirus Risk Tested] == Yes

Coronavirus Risk Tested When	Percent
I was tested the same day I started experiencing symptoms	9.2%
2-3 days	18.0%
4-7 days	10.5%
8-14 days	3.9%
14+ days	2.8%
I had not experienced any symptoms before being tested	51.7%
I don't know	3.9%

Coronavirus Risk Positive: N = 1940

Have you tested positive for Coronavirus (COVID-19)?

Margin of error = 3.1%

Displayed if: [Coronavirus Risk Tested] == Yes

Coronavirus Risk Positive	Percent (Asked)	Percent (All Resp)
Yes	18.1%	3.8%
No	80.7%	17.1%
I don't know	1.2%	0.3%
Not answered		78.9%

Coronavirus Attitudes Concern Level: N = 8611

How concerned are you about Coronavirus (COVID-19)?

Margin of error = 1.5%

Coronavirus Attitudes Concern Level	Percent
Very concerned	34.1%
Somewhat concerned	31.3%
Slightly concerned	21.4%
Not at all concerned	13.1%

Coronavirus Attitudes State Order Reaction: N = 8611

Which statement best reflects your feelings about closures, restrictions, and other steps that the state of <State Name> has taken to slow the spread of the virus?

Margin of error = 1.5%

Coronavirus Attitudes State Order Reaction	Percent
I wish they would do even more	23.3%
I think the steps are appropriate given the serious nature of the crisis	44.3%
I think some of the steps are important, but overall they go too far	18.3%
I think everyone is overreacting	8.9%

Covid Protective Measures Freq: N = 8611

How often do you do each of the following?

Margin of error = 1.5%

Action	Always	Sometimes	Rarely	Never
Wear a cloth face covering or face mask while in public	79.8%	13.3%	4.3%	2.6%
Stay home and limiting trips to only essentials	52.0%	31.9%	9.3%	6.7%
Stay 6 feet apart from others	61.8%	28.3%	6.5%	3.4%
When socializing, gather with small groups only	53.3%	25.2%	11.3%	10.2%
When socializing, gather with small groups only and continue wearing masks and remaining six feet apart	53.5%	25.5%	10.8%	10.2%

Covid Protective Measures Not Always Facemask: N = 1691

You indicated that you don't always wear a cloth face covering or mask while in public. What best describes why you don't? Select all that apply.

Margin of error = 3.3%

Displayed if: [Covid Protective Measures Freq -- Wear a cloth face covering / face mask] == Sometimes, Rarely, or Never

Reasons	Selected
Don't have one	7.1%
Don't think I am required to	10.4%
Unable to wear one because of a health issue or disability	9.6%
My workplace does not want me to	5.3%
It's uncomfortable	27.1%
Worried about racial bias	4.9%
Worried that people will think I'm sick	5.2%
I forget to bring it with me	17.5%
Wearing a mask isn't worth the impact on society	11.5%
If I'm social distancing and/or outside, it's not necessary	30.3%
When others aren't wearing one, I don't either	13.5%
I don't really trust the people who are telling us it is necessary to wear a mask	19.8%
I trust that the people I'm gathering with have taken the proper precautions	16.5%
I have received a COVID-19 vaccine	8.7%
Other	11.1%

Covid Protective Measures Not Always Distancing: N = 3230

You indicated that you don't always stay 6 feet apart from others while in public. What best describes why you don't? Select all that apply.

Margin of error = 2.4%

Displayed if: [Covid Protective Measures Freq -- Stay 6 feet apart from others] == Sometimes, Rarely, or Never

Reasons	Selected
I get anxious and/or feel depressed when I can't be physically close to my friends	10.1%
When I try to stay socially distanced, others don't	29.3%
Some of the places I go don't have enough room to stay 6 feet apart	43.5%
I don't really trust the people who are telling us it is necessary	15.5%
If I'm outside and/or wearing a mask, it's not necessary to stay physically distanced	28.6%
When people I know aren't staying physically distant, I don't either	17.5%
I have received a COVID-19 vaccine	12.9%
Other	7.8%

Covid Protective Measures Not Always Small Gatherings: N = 3815

You indicated that you don't always gather with small groups only when socializing. What best describes why you don't? Select all that apply.

Margin of error = 2.2%

Displayed if: [Covid Protective Measures Freq -- Gathers small groups only when socializing] == Sometimes, Rarely, or Never

Reasons	Selected
I get anxious and/or feel depressed when I can't be physically close to my friends	9.9%
I hear inconsistent information about gathering, so I'm not sure what to do	13.5%
It's hard to exclude people from gatherings, I don't want to hurt anyone's feelings	14.4%
It's hard to say no to some gatherings, I don't want to be disrespectful	14.6%
Gatherings are spontaneous, so it's not easy to control the number of people	23.3%
I trust that my friends and family have taken proper precautions	34.7%
If we are wearing masks, standing six feet apart and/or are outside, it's not necessary to gather in small groups	24.9%
I have received a COVID-19 vaccine	12.9%
Other	11.4%

Covid Keep Gatherings Small Compelling: N = 4274

How compelling do you find each of the following as reasons to keep gatherings small?

Margin of error = 2.1%

Shown to random 50% subset of respondents

Compelling	Very Compelling	Somewhat Compelling	A Little Compelling	Not At All Compelling
To protect myself or my family from catching the disease	61.6%	21.5%	10.1%	6.8%
To prevent spreading the disease to others, especially the vulnerable	60.8%	23.4%	9.1%	6.7%
Other people in my community keep gatherings small too	36.3%	33.0%	16.1%	14.6%
Small gatherings are mandated by public health officials	41.8%	30.6%	14.1%	13.5%
If I can see a few family members or friends, it's easier to follow the rest of the rules	44.6%	31.8%	13.4%	10.3%

Covid Limit Going Out Compelling: N = 4337

How compelling do you find each of the following as reasons to limit going out to gyms, restaurants or events?

Margin of error = 2.1%

Shown to other 50% subset as Covid Keep Gatherings Small Compelling

Compelling	Very Compelling	Somewhat Compelling	A Little Compelling	Not At All Compelling
To protect myself or my family from catching the disease	61.6%	21.5%	8.7%	8.2%
To prevent spreading the disease to others, especially the vulnerable	59.6%	23.5%	10.5%	6.4%
Other people in my community limit going out too	37.6%	33.9%	14.3%	14.2%
Limited outings are mandated by public health officials	43.7%	31.5%	13.3%	11.6%
If I can see a few family members or friends, it's easier to follow the rest of the rules	41.2%	31.5%	15.0%	12.4%

Coronavirus Agree: N-size between 4258 and 4353

Do you agree or disagree with the following statement?

Margin of error = 2.1%

Each of these options shown to a roughly 50% random subset of respondents

Statements	Strongly Agree	Somewhat Agree	Somewhat Disagree	Strongly Disagree	I Don't Know
If we don't continue practicing social/physical distancing for the long term, the COVID-19 outbreak will get worse and come back.	46.4%	28.3%	10.5%	8.5%	6.3%
I'm worried that I might spread COVID-19 to others, even if I don't have symptoms myself.	29.2%	33.0%	14.4%	15.6%	7.8%
I can lower my risk of catching COVID-19 through the way I act.	59.0%	25.9%	4.9%	5.5%	4.7%
Social/physical distancing and shelter-in-place orders have been successful in slowing the spread of COVID-19.	39.8%	35.7%	10.8%	7.5%	6.2%
I want to get back to normal, even if it means risking another outbreak.	14.3%	18.5%	22.2%	39.8%	5.2%
Social/physical distancing is difficult, but it's worth it.	52.2%	28.6%	8.2%	6.2%	4.8%

Coronavirus All Behaviors Reasons: N = 8611

Which of the following would make you more likely to follow recommended COVID-19 behaviors? Select the two (2) most compelling reasons.

Margin of error = 1.5%

Reason	Selected
If I believed it would help to end the pandemic as soon as possible.	63.3%
If my friends and family were always following the recommendations.	19.6%
If I believed it was a way to protect the most vulnerable in my community.	43.3%
If I believed it would mean I was not responsible for getting someone else sick.	31.1%
If the recommendations were required or mandated everywhere I went.	30.7%
If I believed that following the recommendations was a patriotic act.	12.0%

Covid Vaccine Eligibility Post Approval: N = 8611

Are you eligible to receive the COVID-19 vaccine under your state's current vaccination rollout phase?

Margin of error = 1.5%

Covid Vaccine Eligibility Post Approval	Percent
Yes	52.2%
No	27.9%
Unsure	20.0%

Covid Vaccine Eligible Not Received Why: N = 2350

You indicated that you are currently eligible for a vaccine in your state, but you have not yet received a dose. Which of the following statements best reflects why?

Margin of error = 2.8%

Displayed if: [Covid Vaccine Eligibility Post Approval] == Yes and [Covid Vaccine Intent Post Approval] == No

Covid Vaccine Eligible Not Received Why	Percent
I have an appointment scheduled but have not yet received the vaccine.	18.9%
I have not been able to secure an appointment to be vaccinated, or the appointment I scheduled was cancelled.	19.7%
Vaccine supply is limited, and others who are eligible need it more than I do.	19.9%
I do not intend to be vaccinated for COVID-19.	23.4%
I don't know how to sign up or where to go to be vaccinated.	7.6%
None of the above	10.5%

Covid Vaccine Received Post Approval: N = 8611

Have you received at least one dose of a COVID-19 vaccine?

Margin of error = 1.5%

Covid Vaccine Received Post Approval	Percent
Yes	28.2%
No	71.8%

Covid Vaccine Received Post Approval Family: N = 8611

Do you know a family member or friend who has received at least one dose of a COVID-19 vaccine?

Margin of error = 1.5%

Covid Vaccine Received Post Approval Family	Percent
Yes	66.6%
No	33.4%

Covid Vaccine Intent Post Approval: N = 2118

How likely are you to get vaccinated for COVID-19 when it is made available to you?

Margin of error = 2.9%

Displayed if: [Covid Vaccine Eligibility Post Approval] == No and [Covid Vaccine Received Post Approval] == No

Covid Vaccine Intent Post Approval	Percent
Very likely	42.7%
Somewhat likely	20.3%
Somewhat unlikely	8.9%
Very unlikely	19.7%
Not sure	8.3%

Covid Vaccine Barriers: N = 1209

You indicated that you aren't sure or are unlikely to get the coronavirus vaccine. What best describes why you are not likely to get the vaccine? Select all that apply.

Margin of error = 3.9%

Displayed if: [Covid Vaccine Eligible Not Received Why] == I do not intend to be vaccinated for COVID-19 or [Covid Vaccine Intent] == Somewhat Unlikely, Very Unlikely, or Not Sure

Barriers	Selected
I'm worried the vaccine will have side effects	42.2%
I'm worried the vaccine will give me COVID-19	11.5%
I don't trust that the vaccine will really be safe	44.6%
I don't trust that the vaccine will really be effective	31.7%
Politicians, not scientists, are making decisions about the vaccine	23.9%
I don't react well to vaccines in general	13.6%
I don't have health insurance or can't afford it	3.2%
I don't think I need it because I've already had COVID-19	6.6%
COVID-19 is not such a big deal, so I don't think I need it	10.0%
Other people will get it so I won't need it	5.6%
I don't believe vaccines work	12.5%
I'm concerned it has not been tested enough on people like me	32.5%
I'm concerned about a certain vaccine that has been approved	11.3%
Other	7.5%

Covid Vaccine Concern Certain Vaccine: N = 139

You indicated you are concerned about a certain vaccine that has been approved. Which of the following vaccines are you concerned about? Select all that apply.

Margin of error = 11.5%

Displayed if: [Covid Vaccine Barriers] == I'm concerned about a certain vaccine that has been approved

Producer	Selected
Pfizer	61.7%
Moderna	62.6%
Johnson & Johnson	67.9%
Other	13.1%

Covid Vaccine Motivators Post Approval: N = 5710

Which of the following would make you more likely to get the COVID-19 vaccine when it is made available to you? Select all that apply.

Margin of error = 1.8%

Displayed if: [Covid Vaccine Received Post Approval] == No and [Covid Vaccine Eligible Not Received Why] == I do not intend to be vaccinated for COVID-19 and [Covid Vaccine Intent Post Approval] not Very Likely

Motivators	Selected
If it was recommended by my local health department	17.3%
If it was recommended by local government officials	11.1%
If it was recommended by federal government officials	11.9%
If it has been out for a few months and seems okay	24.1%
If I knew it would help protect me from getting COVID-19	39.8%
If I knew that it was part of helping end the pandemic	34.3%
Seeing government officials, like Dr. Fauci and members of Congress, get the vaccine	11.4%
Seeing public health workers, like doctors, nurses and caregivers, get the vaccine	15.4%
Seeing my friends, family, and neighbors get the vaccine	22.0%
Seeing people I know share that they've gotten the vaccine on social media	8.7%
None of the above	26.6%

Covid Vaccine Benefits Post Approval: N = 5710

Which of these are the most compelling reasons to get the COVID-19 vaccine once it has been made available to you? Select all that apply.

Margin of error = 1.8%

Displayed if: [Covid Vaccine Received Post Approval] == No

Reasons	Selected
I would be more comfortable leaving my home to do everyday errands, like shopping, going to the dentist/doctor, getting regular car maintenance, and so on.	38.3%
I would be able to resume all the activities I can't do now.	33.2%
I would be helping to protect my family and friends from getting the virus.	50.1%
I would be helping to get businesses and people whose finances have been negatively impacted by the pandemic get back on their feet sooner.	27.4%
I would be helping children and college students get back to the classroom as soon as possible.	23.2%
None of the above	22.1%

Coronavirus Information Trust: N = 4289

How much do you trust the following sources of information about the Coronavirus (COVID-19):

Margin of error = 2.1%

Shown to random 50% subset of respondents

Source	Strongly Trust	Slightly Trust	Slightly Distrust	Strongly Distrust	Have No Opinion
Local public health officials	32.0%	39.1%	11.4%	7.6%	10.0%
