

Gates COVID-19 Tracker, Wave 20 - National - Parent Vaccination Intent & High School / College Questions by Education, Urbanicity, and Vaccination Status

This document includes selected crosstabs for 4389 responses to the Gates COVID-19 Tracker fielded August 23-24, 2021, collected across the U.S. The crosstabs report on the percentage of survey-takers who selected each response, weighted to the relevant demographic or geographic subgroup within the U.S. general population (adults aged 18+) in Civis' consumer file. Each question is labeled by its question tag (which was included in the Questionnaire document in brackets) and the question text. Some questions were only shown to a subset of respondents; the number of responses to each question is indicated by "N = " in the label, and the number of responses within each subgroup is indicated in the "Total Count" column. A description of the subset who were shown the question is also included below the question text, indicated by "Displayed if:" or "Shown to."

Selected National Crosstabs

Covid Vaccine Intent Parent 0 To 6Mo by Education: N = 139

How likely are you to get your 0 - 6 month old child(ren) vaccinated for COVID-19 if it is made available to them?

Margin of error = 12%

Displayed if: [Covid Parents Children Age] == 0 - 6 months old

Education	School Diploma Or Less	College Educated	Advanced Degree
Total Count	61	59	19
Very likely	12.7%	30.2%	39.8%
Somewhat likely	33.4%	31.9%	42.0%
Somewhat unlikely	1.9%	5.2%	0.0%
Very unlikely	36.8%	22.5%	17.2%
Not sure	15.2%	10.3%	1.0%

Covid Vaccine Intent Parent 0 To 6Mo by Urbanicity: N = 139

How likely are you to get your 0 - 6 month old child(ren) vaccinated for COVID-19 if it is made available to them?

Margin of error = 12%

Displayed if: [Covid Parents Children Age] == 0 - 6 months old

Urbanicity	Urban	Suburban	Rural
